

Land for sale in Sant'Antonio di Gallura

€ 295.000

Ref. CBI040-778-10373

165.000 sq.m.

For sale agricultural land with pen. Nestled in the upper Gallura, 15 minutes by car from Arzachena, in a fairy-tale landscape, in unspoiled nature. The land, immersed in an ever-changing and never predictable beauty, is surrounded by hundreds of centuries-old oaks and majestic olive trees, between granite boulders typical of the area and Mediterranean scrub, rich in an indefinite number of essences whose scents envelop you. In this naturalistic context we find among routes and paths ideal for trekking, the agricultural land with an ancient Stazzo in stone and local granite, whose age is indefinite but, being stacked, allows us to recover it and the possibility of being able to build a new villa of about 250 square meters. A unique opportunity therefore, for those who love the authentic flavors and scents of houses in the countryside, a few kilometers from the most popular north-east coast of Sardinia. The land is 16 hectares completely fenced with the classic stone walls and is crossed by a stream, another element that makes it unique.
