Eur - On the top of the EUR hill, in Via Nepal, we are pleased to present you an exclusive and elegant transformation of a villa residence built in the 1960s into a modern condominium of 5 apartments and 2 completely independent penthouses. This is a rare opportunity to live in a residential area surrounded by greenery, in an unobtainable oasis of well-being just 15 minutes from the historic center of Rome. All the properties are of the A3 energy class, equipped with the most innovative technologies, with photovoltaic systems, air conditioning, home automation and anti-theft system. Each of the 7 homes has unique and different characteristics, all with triple exposure, oak parquet, armored door, electric windows, large and sunny terraces or gardens to enjoy relaxation in total privacy, a large cellar/laundry room, 2 uncovered parking spaces, lift to the penthouses and automatic entrance gate.

These residences represent an excellent housing choice thanks to the proximity of the main services, shops, Metro B station, exclusive sports clubs and even international schools, but surrounded by magnificent green areas such as the EUR lake and the Eucalyptus park. Choosing to live in new homes with outdoor spaces and reduced energy costs, in an elegant neighborhood, is an investment for the future and above all for the next generations.
